“

*Finishol – Eco friendly cleaning solutions at your office, factory, house or hotel.*

”

Symbols representing Eco-Friendly products

The Company, Ashok Chemicals is specialized in making useful, unique and safe to use products. Our products are useful in all the industries as they are eco-friendly. Some of these products are awaiting their patent approvals. We are trying to reduce the use of harmful, dangerous, flammable and toxic cleaning chemicals with eco-friendly, waterless and green solutions for the cleaning industry. Finishol is also responsible for reducing your inventory as the products have multi-utility.

Our aim was to introduce dual cleaning technology which will clean and also take care of the surfaces and the environment.

**FINISHOL 99**

# finishol 180

This product is used for cleaning floors which are soiled with edible oil, butter, ghee, oily food, cheese, grease or engine oil. It does not require water and encourages watersaving in the organisation. Finishol 180 is a non-flammable, non-hazardous, non-toxic and neutral pH product.

## WATERLESS FLOOR CLEANER

### Benefits

Uses: Oil & Grease Floor Cleaner of use across Industries. It is used to clean all types of floors namely marbles, granites, ceramic tiles, epoxy, polyurethane (PU), wooden-polished, steel, aluminium and more.

### Cost Efficiency:

This product is very useful during water shortages and special conditions. The water from tankers or borewell is hard and tends to spoil the flooring. It is more important to avail water for drinking and daily uses.

We can use Finishol 180 for cleaning floor during a water shortage. In case of water availability, a bi-weekly use of this product ensures that the water-marks left by water-dilution cleaning products are reduced.

The product is cost-effective if utilized on proper schedules.

# *finishol* 270

## WATERLESS SURFACE CLEANER

### Benefits

It is used to clean all types of surfaces namely aluminium in elevators, ceramic tiles, epoxy, PU, powder-coated, sunmica, steel, acrylic, plastic and more. A very important use of this product is to clean head-boards in hotel rooms, houses, office chairs, etc. surfaces with just a little quantity. Aluminium tables, powder coated electrical panels in elevators, sunmica on furniture, corners or edges of plastic chairs, electrical wires and switches, telephone and other electronic instruments, and other surfaces can also be cleaned with the same product.

Cleaning surfaces soiled with sweaty hands, edible oil, butter, ghee, oily food, cheese, grease or industrial oil is easily possible with this product. It does not require water and encourages water-saving in the organisation.

Finishol 270 is a non-flammable, nonhazardous, non-toxic and neutral pH product.

Cost :Efficiency: This product is very useful for the quantity required is comparatively less against the area covered and therefore it is a reasonably priced product.

## Multi Purpose Heavy Duty Solution De-gumming, De-Greaser, Sticker and Artificial Rust Remover

### Uses and Benefits

It combines the benefits of Finishol 180 & Finishol 270 and can be used in heavy duty applications. De-Gumming, Heavy Duty Component Cleaner (For Oil, Dust, Grease, Artificial Rust etc.), De-greaser, Surface Cleaner for Oil & Grease Spillages. It is in form of a liquid

- **Multi purpose liquid solution**
- Applicable in almost all the surface to clean
- tough stains
- Used to remove gum/sticker marks, heavy degreaser, chimney/exhaust cleaner, etc.
- Cost effective
- Available in packaging of 5 litre can onwards

This product is our star product for removing superficial rust marks, sticker marks and chewing gum from sun mica, plastic or powder coated furniture, metal surfaces, aluminium and glass surfaces. It does not require water and encourages water-saving in the organisation. It is a non-flammable, non-hazardous, non-toxic and neutral pH product. This product is also used for cleaning oil stains on chimneys and exhausts. It also acts as a very good degreaser to clean oil & grease from metal components, aluminium parts and also from epoxy and PU floorings.
